

Sports & Other Activities

Doing personal activities enhances personal skills and personal point of view that could be vital for an engineer to perform effectively in various projects.

Sports:

- Volleyball: former state player, currently representing my university.
- Judo and Jujitsu: an early passion of mine which I continue to practice for enjoyment .

Activities:

- Intern in student organisation that offers lighting and sound setting up services and DJing performances. Can7
- I am developing some menus to create a school club about gastronomy to offer students fine quality, affordable meals.
